

Sudan Needs Assessment of NGOs Post April 2023 Conflict

Between July and November 2023, i-APS Sudan used its KAPorg capacity assessment platform to conduct a needs assessment of non-governmental organizations (NGO) in Sudan as part of its commitment to the Sudanese community. The assessment sought to better understand the current operating capacities and identify the priority needs to address the emergency response of NGOs operating in Khartoum and other affected states due to the April 2023 conflict.
